Emergency Repair Storm
Sewer System
2700 Block Phipps Avenue

Michael LeFevre

[Signature]

PREVIOUS ACTIONS

None.

RECOMMENDED BOARD ACTION

Motion to approve the Engineering Department to hire a contractor to repair the large elliptical concrete pipe in the 2700 block of Phipps Avenue at a cost not to exceed \$26,500. To be funded from surplus funds from the 2014 Bond Issue.

COMMENTS

The homeowner at 2720 Phipps contacted the Engineering Department on May 1, 2015 to report the collapse of the concrete elliptical pipe alongside his property. The pipe needs to be replaced immediately since it is blocking the system and additional lengths of pipe are being undermined as a result.

See photos.
