Resolution # 16-015
Montco 20/40 Grant
Application

TOWNSHIP MANAGER

PREVIOUS ACTIONS

We have been working on trying to improve the pedestrian safety at this intersection for over a year. Several recommendations have been implemented

RECOMMENDED BOARD ACTION

Motion to adopt Resolution # 16-015, authorizing the proper officials to apply for a grant for improvement at the intersection of York Road and the Fairway.

COMMENTS

1. We have implemented several improvements to this intersection including, no turn on red from the Fairway, no turn on red only when sign is lit, which only comes on when the pedestrian button is pushed. This restricts the right turn movement on to York Road. Timing changes and discussions on moving the crosswalks have been implemented.
2. All of the improvements have helped, but the configuration of the intersection makes it hard to solve all concerns there. We believe by installing a bump out at the corner, it will reduce the distance the person crossing has to travel to get from one side to the other. There was a walking study done recently in that area and one of the recommendations was to install this bump out.

Montgomery County is offering a grant which is referred to as the Montgomery County 20/40 Grant. We believe this would be a very good candidate for this grant because it was recommended in the Montco Walk Plan. This approximate cost for this would be \$90,000 to \$110,000 dollars and it is a 20% match. Our match would be the preliminary work as well as the design, engineering and implementation of the project. We anticipate our approximated costs to do this between \$20,000 to \$22,000.
